## 1 Aim of the package

The default citation styles `verbose-trad1`; `verbose-trad2`; `verbose-trad3` use the *op. cit.* form in order to have shorter reference when a title have been already cited.

However, when you cite two entries which share the same booktitle but not the same title, the *op. cit.* mechanism does not work.

For example we obtain the following example:

*Actes de Barnabé.* In: *Écrits apocryphes chrétiens.* Trans. and annot. by Enrico Norelli. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 627–642

Pseudo-Hippolyte. *Index apostolorum discipulorumque Domini.* In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata.* Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 163–170

*Actes de Tite.* In: *Écrits apocryphes chrétiens.* Trans. and annot. by Willy Rordorf. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 609–615

Pseudo-Épiphane. *Index apostolorum discipulorumque Domini.* In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata.* Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 107–126

While we would like to obtain:

*Actes de Barnabé.* In: *Écrits apocryphes chrétiens.* Trans. and annot. by Enrico Norelli. Vol. 2. Bibliothèque de la Pléiade 516. Paris: Gallimard, 2005, pp. 627–642

Pseudo-Hippolyte. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Leipzig: Teubner, 1907, pp. 163–170

*Actes de Tite*. In: *Écrits apocryphes chrétiens*. Trans. and annot. by Willy Rordorf. Vol. 2. Op. cit., pp. 609–615

Pseudo-Épiphane. *Index apostolorum discipulorumque Domini*. In: *Prophetarum vitae fabulosae indices apostolorum discipulorumque Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata*. Ed. by Theodor Schermann. Op. cit., pp. 107–126

The aim of this package is to enable such abbreviation.

## 2 Use

The `biblatex-opcit-booktitle` package must be loaded after the `biblatex` package. You must use a `verbose-trad` citation style. For example:

```
\usepackage[bibstyle=verbose,citestyle=verbose-  
↪ trad1,citepages=omit]{biblatex}  
\usepackage{biblatex-opcit-booktitle}
```

In order to know when two entry share the same `booktitle`, you must use the `crossref` mechanism of `biblatex`. In the case of the previous example, we used:

```
@book{Pleiade2,  
  Address = {Paris},  
  Number = {516},  
  Publisher = {Gallimard},  
  Series = {Bibliothèque de la Pléiade},  
  Title = {Écrits apocryphes chrétiens},  
  Volume = {2},  
  Year = {2005}}
```

```
@bookinbook{Pleiade_Barnabe,  
  Annotator = {Enrico Norelli},  
  Crossref = {Pleiade2},  
  Pages = {627-642},  
  Title = {Actes de Barnabé},  
  Translator = {Enrico Norelli}}
```

```
@bookinbook{Pleiade_Tite,
```

```
Annotator = {Willy Rordorf},
Bhg = {1850z},
Crossref = {Pleiade2},
Pages = {609-615},
Title = {Actes de Tite},
Translator = {Willy Rordorf}}
```

```
@book{Schermann1907,
  Address = {Leipzig},
  Editor = {Theodor Schermann},
  Publisher = {Teubner},
  Title = {Prophetarum vitae fabulosae indices apostolorum discipulorumque
↪ Domini Dorotheo · Epiphanio · Hippolyto aliisque vindicata},
  Year = {1907}
}
```

```
@bookinbook{Pseudo-Hippolyte,
  Author = {{Pseudo-Hippolyte}},
  Crossref = {Schermann1907},
  Pages = {163-170},
  Title = {Index apostolorum discipulorumque Domini}}
```

```
@bookinbook{Pseudo-Epiphanie,
  Author = {{Pseudo-Épiphanie}},
  Crossref = {Schermann1907},
  Pages = {107-126},
  Title = {Index apostolorum discipulorumque Domini}}
```

There is not other thing to do!

The feature works with these entrytypes: @inbook, @incollection, @inproceedings, @bookinbook.

## 2.1 Limits

We have not implemented options to use abbreviation like *ibid*, because we want to have not ambiguous abbreviated forms.

If you have redefined the cite bibliographic macro, you must changes:

```
\usebibmacro{cite:full}%
  \usebibmacro{cite:save}
```

by:

```
\usebibmacro{cite:test:ifrelated}
```

## 2.2 Customization

You can change the `inbook:rel` bibliographic driver to customize the way the main title is printed.

## 3 Credits

This package was created for Maïeul Rouquette's phd dissertation<sup>1</sup> in 2015. It is freely inspired by Paul Stanley code.<sup>2</sup> It is licensed on the *L<sup>A</sup>T<sub>E</sub>X Project Public License*.<sup>3</sup>

All issues can be submitted, in French or English, in the Framasoft issues page<sup>4</sup>.

## 4 Change history

### 1.0.2 2015-06-05

Wrap “op. cit” in `\mkibid`.

### 1.0.1 2015-06-03

Correct order of name's part (first name / last name).

### 1.0.0 2015-05-31

First public release.
